

SKIRT **BOARD** **protector**

1-877-WONT ROT

NEW

Simple, Effective Skirt-Board Protection

The perfect complement to the Post Protector. Soil-to-wood contact is never a good thing. That not only applies to the post, but the skirt-board as well. Skirt-Board Protector protects the skirt-board just as the Post Protector protects the post. Together, they elevate post frame foundations to the next level.

Offering easy installation, neat “finished” appearance, affordability, and, of course, rock solid protection. The combination of Skirt-Board Protector and Post Protector deliver the best post frame foundation in the industry.
